

A.1

Declaration of the Accountable Manager

This aerodrome manual has been prepared in accordance with Regulation (EU) 2018/1139 and the pertinent provisions for its execution. It is in conformity with the certificate requirements issued by the pertinent aviation authority and contains — in addition to national and international rules and regulations — internal guidelines, instructions and operating procedures prepared by Flughafen Berlin Brandenburg GmbH for the purpose of ensuring safe airport operation in conformity with regulations.

The provisions of the aerodrome manual consequently represent binding standards and procedures for all executives, associates and external contractors and business partners of Flughafen Berlin Brandenburg GmbH; the compliance of such parties with these provisions as the basis of their actions in the performance of their respective activities is mandatory.

All executives are obligated to ensure that internal associates, external contractors and business partners within the former's areas of responsibility are familiar with the contents of the aerodrome manual relevant to the latter and that the latter act in accordance with these contents.

Any and every wilful or grossly negligent transgression of the provisions in this aerodrome manual represents a violation of national and/or international regulations and can result in labour law action as well as official sanctions.

None of the provisions in this aerodrome manual should be interpreted to hinder anyone from acting in accordance with his/her own judgement to ward off hazards in emergency situations or in cases of operational irregularities for which no regulations exist.

Thomas Hoff Andersson
Chief Operating Officer /
Accountable Manager
